

Basic License

Price: £50

Semi-professional license that is typically used by beginner artists that want to promote their song on SoundCloud or YouTube (non-monetised)

This license comes with an industry quality single WAV-track but not with tracked out files.

Distribution on all major platforms is limited and paid performances and radio airplay is not permitted.

Premium License

Price: £125

Professional license that is the most popular among artists that are releasing their song on platforms like Spotify, iTunes or perform with the song in live (paid) performances.

This license comes with high quality tracked out files which are essential for mixing songs professionally.

We do not recommend this license if you're looking to create a music video for YouTube.

Unlimited License

Price: £200

Professional license with no limitations on streams, plays or sales.

This license is generally purchased by artists that believe their song has the potential to surpass the streaming caps of other licenses.

We strongly recommend this license to artists that want to create and monetise a music video for YouTube.
